REQUEST FOR PROPOSALS
for
Rooftop Solar Photovoltaic System
Fresno EOC Early Head Start Child Development Center
Bid Number: 110513

Fresno EOC is soliciting proposals from qualified and experienced Contractors to design, fabricate, deliver, and install, a turnkey rooftop solar photovoltaic electric generating system for its Early Head Start Child Development Center located at [1441 Divisadero Street, Fresno, CA 93721](#) (click for map).

Contractor must demonstrate the ability to perform the work described in the Scope of Services and have significant experience to perform the outlined work successfully. The design and engineering of the solar PV system is to maximize the solar energy resources, taking into consideration the customer's electrical demand and load patterns, proposed installation site, available solar resources, existing site conditions, and other relevant factors.

Key Factors in Photovoltaic (PV) System Design

- Ease of maintenance and monitoring
- Efficient operation
- Most favorable Savings to Investment Ratio (SIR)
- Most favorable overall system warranty
- The proposed technology and equipment would meet or exceed all currently applicable and proposed environmental standards
- The proposed technology and equipment would meet or exceed all currently applicable and proposed safety and interconnection standards
- All equipment components must be UL certified, and meet existing facility structural and fire safety requirements

Scope of Service

- The scope of services provided by the Contractor shall include all tasks required to design, fabricate, deliver, and install a solar Photovoltaic (PV) system that stresses efficient operation, low maintenance and low operating losses.
- The scope shall also include, but not be limited to, securing all permits and approvals from governing agencies, all labor, taxes, services, permit fees, and equipment necessary to produce a fully operational solar Photovoltaic system. Fresno EOC will become the signatory on applications, permits, and utility agreements only where necessary.
- The contractor will Supply all equipment, materials, and labor necessary to install the solar PV systems and integrate them with other power sources. All costs associated with utility interconnection shall be borne by the awarded Contractor/Vendor.
- Prior to acceptance of the solar PV system, the contractor will provide three (3) sets of as-built drawings including one (1) on CAD or PDF. Provide three (3) sets of operation, maintenance, and parts manuals for the solar PV system. The manual shall cover all components, options, and accessories supplied. It shall include maintenance, trouble-shooting, and safety precautions specific to the supplied equipment.

REQUEST FOR PROPOSALS
for
Rooftop Solar Photovoltaic System
Fresno EOC Early Head Start Child Development Center
Bid Number: 110513

Provide Design Documents With The Following Minimum Information:

- Timeline/Project Schedule Completion, Deadline December 31, 2013 (Firm)
- System description
- Equipment details and description (includes manufacturer's warranty/guarantee information)
- Layout of installation and equipment
- Equipment procurement and installation specifications
- All engineering associated with structural and mounting details
- Performance of equipment components, and subsystems
- Integration of solar PV system with other power sources
- Electrical grid interconnection requirements
- Controls, monitors, and instrumentation
- System performance monitoring device

Project Team Profile

- Resumes of personnel to be directly involved with the development of the proposed systems.
- Team leader identification for the entire Proposal, including full contact information.
- Identification of each entity, sub-contractor, person or firm involved in the Proposal and their role/responsibility, e.g. design, installation, permitting, equipment supply by component, operations and maintenance.
- Identification of the lead person responsible for each of the entities or firms described in above.

Contractor References

List five (5) or more comparable grid-connected PV projects installed over the last five years. Provide the role(s) your organization performed for the project (e.g. material supplier, lead contractor, electrical subcontractor, design, consulting, etc.) including,

- Location
- Date installed
- Customer contact information
- PV system installed
- Project Cost

Exhibit 1

FIRST SOURCE LOCAL AND MINORITY HIRING COMMITMENT (THE COMMITMENT)

Construction companies contracting with Fresno EOC must sign a First Source Local and Minority Hiring Commitment agreement. By executing the Commitment, the contracting company agrees to draw upon local employment agencies such as, Fresno EOC’s Employment and Training Program, Fresno EOC’s Local Conservation Corps, Proteus, and similar such agencies as the first sources of hiring referrals for jobs created from this proposal. Contractors are not required to hire individuals referred to them under the Commitment, but should strongly consider them first in their hiring processes. The contracting company must sign this First Source Local and Minority Hiring Commitment agreement as a condition of the Proposal for The Early Head Start Solar Project.

_____ (Name of Company), hereby agrees that if awarded a contract with Fresno EOC, the contractor and its consultants will use or provide for the use of local employment agencies such as, Fresno EOC’s Employment and Training Program, Fresno EOC’s Local Conservation Corps, Proteus, and similar such agencies as the first sources of employee referrals for construction related and part-time and/or permanent full-time jobs that result in the contract execution from this Project submission.

The contracting company agrees to provide to local employment agencies information on job openings subcontracting opportunities, and the skills required for filling available jobs. The Company understands that local employment agencies will have the first opportunities to provide employee referrals until all jobs are filled. The Company will make every effort to hire qualified individuals referred by local employment agencies.

While completion of Form WH-347 is optional, it is mandatory for covered contractors and subcontractors performing work on Federally financed or assisted construction contracts to respond to the information collection contained in 29 C.F.R. §§ 3.3, 5.5(a). The Copeland Act (40 U.S.C. § 3145) contractors and subcontractors performing work on Federally financed or assisted construction contracts to "furnish weekly a statement with respect to the wages paid each employee during the preceding week." U.S. Department of Labor (DOL) regulations at 29 C.F.R. § 5.5(a)(3)(ii) require contractors to submit weekly a copy of all payrolls to the Federal agency contracting for or financing the construction project, accompanied by a signed "Statement of Compliance" indicating that the payrolls are correct and complete and that each laborer or mechanic has been paid not less than the proper Davis-Bacon prevailing wage rate for the work performed. DOL and federal contracting agencies receiving this information review the information to determine that employees have received legally required wages and fringe benefits.

Public Burden Statement

We estimate that it will take an average of 55 minutes to complete this collection, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. If you have any comments regarding these estimates or any other aspect of this collection, including suggestions for reducing this burden, send them to the Administrator, Wage and Hour Division, U.S. Department of Labor, Room S3502, 200 Constitution Avenue, N.W. Washington, D.C. 20210

Rotating outage blocks are subject to change without advance notice due to operational conditions.

Generation includes PG&E's total cost of energy. Approximately 1% of your energy is provided by the Department of Water Resources (DWR) and collected by PG&E as DWR's agent. In 2013, DWR will return \$26 million to bundled service customers which offsets other generation charges in this bill.

The rates shown above are applicable to bundled service customers. Direct Access and Community Choice Aggregation customers pay only a portion of these rates. Please see the appropriate rate schedule for the applicable charges.

Rotating outage blocks are subject to change without advance notice due to operational conditions.

Generation includes PG&E's total cost of energy. Approximately 2% of your energy is provided by the Department of Water Resources (DWR) and collected by PG&E as DWR's agent. In 2012, DWR will return \$303 million to bundled service customers. The average amount returned for each kilowatt hour (kWh) of energy usage provided by DWR is projected to be 25.056 cents, and offsets other generation charges in this bill. DWR also collects the Power Charge Indifference Adjustment component of the Cost Responsibility Surcharge from Community Choice Aggregation, Direct Access and Transitional Bundled Service customers.

The rates shown above are applicable to bundled service customers. Direct Access and Community Choice Aggregation customers pay only a portion of these rates. Please see the appropriate rate schedule for the applicable charges.
